

**ABSTRACT OF THE DISCLOSURE**

5        A fisherman gripping glove system for efficiently gripping a fish without  
requiring usage of a fishing net. The fisherman gripping glove system includes a glove  
member having an inner layer, an intermediate layer and an outer layer. A plurality of  
particulate material is contained within the outer layer for facilitating gripping of a  
fish. The particulate material is preferably comprised of random and polygonal  
10      structures such as chippings from plastic.
